Pink Cloud Assembly Language

Installation Guide

Pink Cloud Assembly Language is a digital game written in Python. Follow these instructions to play.

1) Download the game as a zip file at
   https://github.com/gamesketches/PinkCloudAssemblyLanguage/archive/master.zip

2) Unzip the file and you should see a few files and folders. Open the "build" folder.

3) If using a windows computer, open the folder named "exe.win-amd64-2.7".

4) Find a .exe file named "Pink Cloud Assembly Language", click it to start the game.

If the above method does not work you will have to install Python 2.7 and Pygame to play it.

1) Download the Python installer from http://www.python.org/ftp/python/2.7.6/python-2.7.6.msi
   and install

2) Download the pygame installer at http://pygame.org/ftp/pygame-1.9.1.win32-py2.7.msi and
   install

3) Double click "main.py" from the base directory of the zipfile
